

Why Cannon Country?

Cannon Country offers the very best in senior care in the warmth and comfort of a genuine home setting. We don't have the long hallways, elevators or distant parking of large facilities that often feel frightening and impersonal to our elderly loved ones. Because our homes have the look, feel and conveniences of a real home, our residents find the transition to assisted living much less stressful and confusing. Our intimate setting and superior staff-to-resident ratio allows our RN and caregivers to know our residents more completely, and to deliver care that is more timely and proactive. As a result, our residents often experience improvements in their comfort and well-being, while living in a warm, family-friendly setting that feels like home.

***Exceptional, Personalized
Care in Deluxe Suites***

About Us

Cannon Country is a superior, home-styled senior living facility located 3 minutes from downtown Cannon Falls. Surrounded by a residential neighborhood, wooded parks and paved walkways, our spacious senior living apartments come fully furnished, with connected handicapped accessible master bathroom. Private patios are available in premium rooms that showcase Minnesota's beautiful wildlife, right outside your window. Just minutes away from the I-52 corridor, Cannon Country is centrally located and easy to reach from neighboring towns with convenient access to medical centers, clinics, restaurants and shops.

Meet our RN

We proudly introduce Roberta Armbruster Murray, RN, as the distinguished Clinical Nurse Supervisor at Cannon Country Senior Living. With an impressive tenure spanning decades in healthcare and senior care, Roberta brings a wealth of invaluable experience and unwavering compassion to her pivotal role within our community. Roberta's dedication extends beyond her professional duties; she is deeply committed to understanding and addressing each resident's unique needs and desires. Her unwavering support and expertise are instrumental in helping our residents maximize their independence by being highly proactive in anticipating resident needs, coordinating with resident's physicians, and arranging treatments and appointments.

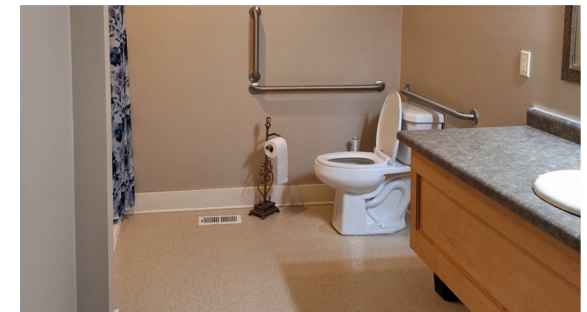

Our Services

Cannon Country offers a comprehensive range of customized assisted living services, including respite care and injury rehabilitation. However, we go beyond traditional assisted living, by offering services distinguished by:

- **High staff to resident ratios** giving you better, more timely and personalized care. Our 24/7 staff takes care of less than 8 residents.
- **Daily wound and injury care** is provided by RN and staff that are trained on each resident's specific care needs. RN collaborates with wound care and physical therapy experts to assess and implement the best treatment options.
- **Couples** – our large rooms are ideal for singles or couples who want to stay together. Even as care needs increase and diverge, we never separate couples.
- **Dedicated RN** focused on driving improvements in your comfort and well-being by integrating into your health care team and proactively guiding you through your journey. Our RN knows you by first name.
